

GIANNI VIRONE TRIO

Modern Jazz – Original Compositions

Gianni Virone – tenor & soprano sax

Davide Liberti – double bass

Mattia Barbieri – drums & percussion

The project

Gianni Virone Trio is the result of a long-standing collaboration between the leader, double bassist Davide Liberti and drummer Mattia Barbieri. Together since 2003, the three musicians from Piedmont, Italy, have worked to build a distinctive group sound, exploring different approaches to improvisation.

Over the years the trio's repertoire has changed radically: from reinterpretations of well-known jazz standards to the leader's original compositions, which today form the core material the group improvises on during performances.

The trio has performed at numerous festivals and jazz clubs across Italy and abroad. In 2008 the group released its debut album, «Frammenti», on the Italian label Silta Records, in collaboration with painter Mery Rigo. In 2017 the trio recorded its second album, «Chance», for DaVinci Jazz.

In brief

Active since 2003, Gianni Virone Trio has released two albums and performed extensively in clubs and festivals throughout Italy and abroad. The group's repertoire is made up entirely of original compositions, the result of personal and collective research developed over more than fifteen years of collaboration.
